

# COMPANY PROFILE

PT. PUTERA INSTRUMENINDO

Sole Agent of Manufacturer:

**DURAG GROUP**

[www.pinst.co.id](http://www.pinst.co.id)

# ABOUT US

---

**PT. Putera Instrumenindo (PIN)** founded in 2001 as a solution provider for process control instrument, electrical mechanical and laboratory instrument, also material testing instrument. **PIN** is the part of worldwide agent/distributor companies and one of the market leaders for combustion technology, environmental monitoring and emission data management.

**PIN** strongly stand as a leading supplier (Sole Agent) of **Durag Group - Germany** and **Environnement SA - France** in **Indonesia**, the companies that create and supply a complete range of **Continuous Emission Monitoring Systems (CEMS)**, **Combustion Gas Analyzer** for compliance, process, engine testing and ambient monitoring applications, including multi-gas analyzers, discrete analyzers, particulate monitors, and air quality monitoring systems.

**PIN** has the experience and leading-edge expertise to meet customers' needs also emphasis on quality and rugged design has established **PIN** as a universal equipment supplier and systems integrator with a reputation for long-term reliability. **PIN** commitment for all customer is the success continues beyond installations. After equipment is installed, customer can rely on **PIN** to handle on-site customer training, certification testing, immediate access to spare parts and any other request that are needed to be support.

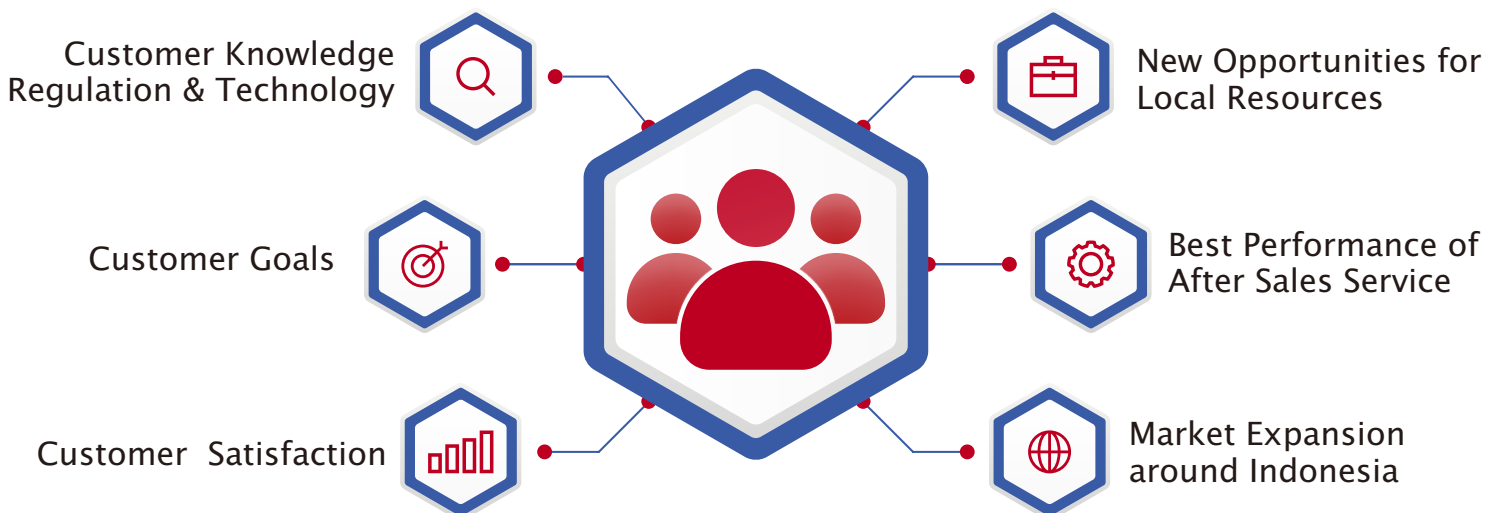

Customer can count on a quick response from **PIN** team that has been trained directly from the factory service, and **PIN** location strategically throughout the city. To ensure maximum performance, **PIN** also handle maintenance service so customers can create routine service from daily, monthly, quarterly, or yearly with a maintenance contract.

“

**Our vision is to be the leading solution provider for process control instruments, electrical/mechanical equipments & laboratory/material testing instruments in Indonesia.**

”

## OUR MISSION

- ✓ **PIN** to ensure that customer received update of newest regulation and technology to support their businesses
- ✓ **PIN** to ensure Customer's demand to be fulfilled to achieve their goals
- ✓ Customer satisfaction and loyalty is **PIN** priority
- ✓ **PIN** to increase local resources involvement in more projects to help local vendor and communities economy, but also to be a fast responder to customer
- ✓ **PIN** to maintain performance of services after installation for customer's long lifetime system and function
- ✓ **PIN** to expand market of goods & services in much more industries within Indonesia

# OUR PRODUCTS

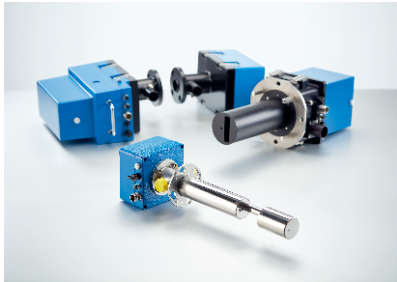

PIN is the Sole Agent/ Main Distributor in Indonesia for products below:

**DURAG GROUP**

**Hegwein**

**SMITSVONK**

## Environment Technology:

Dust Monitoring

Volume Flow Monitoring

Mercury Analyser

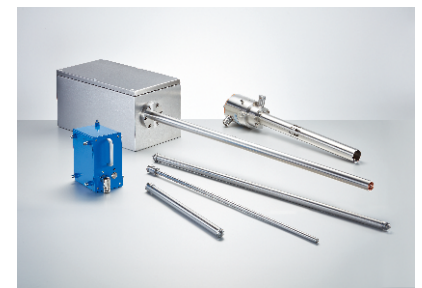

## Combustion Technology:

Furnace Camera

Flame Monitoring

Ignitor

## Continuous Emission Monitoring System & Air Quality Monitoring System Technology:

Multigas CEMS Analyser

Laser Gas Analyser

Mercury Analyser

Single Analyser

PM 10 + PM 2,5 + TSP Analyser

HC +Ch4 Gas Analyser

# OUR PRODUCTS

PIN is also have a good relationship to provide products from:

Transcat/ Ametek	Complete range of test, measuring and calibration	Olympus	Industrial videoscope, flexible fiberscope, riaid
Ametek Chatillon/ Lloyd	Force measuring instruments/ materials testing system	Pyrometer Instrument	Portable IR Thermometer
Ametek	Pressure, temperature, & signal calibration	PCWI International	Corrosion-plt & crack dept, DC crest meter
Shibata	High quality air sampler & low volume air sampler	Checkline	Digital multiscale durometer
Saft Batteries	NI-CD Batteries	Onosokki	Sound level meter and sound calibrator
Choensei	Optimal solution solenoid metering pumps	Megger	Portable test instrument for maintenance of electrical power system
KSB Pump	Pump & valves of the highest level of safety for industrial applications	Ebro Armaturen	Butterfly valve & acuator

# OUR SERVICE

---

## BASIC INSTRUMENTATION SERVICE

These services are provided as required basis. Services guaranteed by our company such as:

1. Repair and calibration of instrument in our workshop or users plant.
2. Preventive maintenance and general services.
3. Commissioning and plant start up assistance.

## SCHEDULE OF MAINTENANCE CONTRACT

We will recommend and train users to implement a great scheduling maintenance contract designed to meet end users specification need. Engineering scope of work by our company are:

1. Checking, cleaning and improve product quality.
2. Checking and calibrating all recorders, indicators, transmitters, control valves and analyzers.
3. System improvement and product modernization as recommend.

## INSTRUMENTATION ENGINEERING SERVICES

Handling the project turnkey basis: Desing engineering detail process, calculate and propose the specification of instrument package. Total plant instrumentation quotation, according to the user needed. Engineering scope of work by our company are:

1. Plant automation.
2. Supply of instrumentation panel.
3. Construction and installation.
4. Project management and supervision.
5. Start up and commissioning.

## PANEL DESIGN AND PRODUCTION

Our engineers have capabilities to design, engineering, fabricate, and assembling the control panel as well as the user requirements.

# OUR CUSTOMER TESTIMONIAL

“ The condition of CEMS product installed by PT. Putera Instrumenindo is still working very good until now, we recommend the maintenance contract from PT. Putera Instrumenindo”. Moeljono SR, Procurement Manager of PT. Pembangunan Jawa Bali (PJB)

“Since March 2011 CEMS products has been installed in our place, it is still working very well and it is very satisfying, thanks to PT. Putera Instrumenindo”. Asok Saboo, Vice President of PT. Indo Bharat Rayan.

“We are quite satisfied with the performance of products installed and maintain from PT. Putera Instumenindo. They worked properly fulfill our need and desire and all the scope of work were completed on time without any constraints”. Luthfy Triheru, Manager of PT. PLN (persero) Ombilin Sector)

“Since June 2011, until now, The CEMS equipment, Opacity and Total Particulate Monitor are still working well here and we are satisfy with after sales service by PT. Putera Instrumenindo”. Setyo BS, Supervisor Automation & Analyzer of PT. Lontar Papyrus

# OUR ACHIEVEMENT

After provided 5 years of CEMS Warranty to PJB Paton Unit 1 & 2 since 2011, **PIN** providing Contract Maintenance every since to PJB Paton 1 & 2 for CEMS with a CEMS-babysitting. After 1 year of Contact Maintenance, **PIN** received an award of Best Service Instrument from PJB Paton. This award has motivated us to do more and maintain our good performance for instrument services.

CEMS-Babysitting is a technician that **PIN** hired and trained to do a daily maintenance of CEMS at site. this technician will come everyday to check the performance of the CEMS system and also to check the data monitoring has no issue. Any minor troubleshooting will be solved by the CEMS-Babysitting. And for major troubleshooting and spare parts replacements will be done by **PIN** engineer.
